*We are pleased that you have entrusted us with your pet's care while you are away. The following information will help us to ensure everything is in order for their stay.*

**Mandatory Emergency Contact:** \_\_\_\_\_

When your pet arrives, we will tag all personal items immediately. He/She will also be inspected upon arrival for fleas/ticks or other external parasites. If any are found, your pet will be treated before entering the boarding facility, at your expense.

**PROOF OF VACCINATIONS:** All pets must be current on vaccinations, exam, parasite testing and FELV/FIV testing, prior to entering the boarding facility. If a parasite screening is done while your pet is boarding, and it comes back positive, your pet will be treated accordingly, at your expense. This ensures your pet's protection as well as the safety of our other boarders.

**SPECIAL FOOD OR MEDICATIONS:** Unless personal food is brought, your pet will be fed a Hill's Sensitive Stomach diet according to their size. However, we will be happy to feed any food that is brought with your pet. If needed, we can also open a new bag of food for your pet during their stay and put it on your account. Please leave any special feeding instructions with the food. Any medications that your pet may need will also be given to them by our support staff. Please leave medications with detailed instructions or prescription labels.

**PERSONAL ITEMS:** Your pet's boarding area is cleaned thoroughly every day (more often when needed) and all bedding is changed and washed as needed. Any personal items brought with your pet should be labeled with a permanent marker prior to check-in. Any personal items left behind will be tagged with your name or put in our lost and found. Any items not claimed or picked up after 30 days will be donated to a local rescue group or disposed of.
