

“Star”ting Out

Kitten visits are a very important time for you and your new kitten. You are bonding, getting to know each other, and you want nothing but the best for your little star. Let us help you start your kitten out right, with our kitten visit regimen.

STANDARD KITTEN VISIT

Full Body Exam **\$47.00**

Our doctors will perform a full comprehensive exam, from the tip of the nose to the tip of the tail. *An exam is required for vaccinations.

Intestinal Parasite Screening **\$27.75**

Our stool samples are shipped overnight to our outside laboratory, Idexx. They have the capability to detect 70% more than we can with an in-house test.

Rabies Vaccine (given at 16 week visit) **\$12.50**

Vaccination for Rabies is legally required by the State of Louisiana once a year. Although Rabies is not as common as it was years ago, we want our stars to remain protected!

RCCP Vaccine (given at 9, 12, & 16 week visits) **\$13.95**

This vaccination protects against four diseases, including Rhinotracheitis, Calici Virus, Chlamydia, and Panleukopenia.

Leukemia Vaccine (given at 12 & 16 weeks) **\$16.00**

Leukemia is an immune deficiency disease, caused by a virus. It can be spread from mother to kitten, and by simple contact such as nose-to-nose or by sharing a water bowl with an infected cat.

Total for Standard Fees **\$88.70 – 117.20**

OPTIONAL SERVICES

(check if yes)

Pawdicure (nail trim) **Free with Exam ()**

Our trained staff will clip your kitten’s nails and can show you the proper way to trim nails at home if you wish to learn.

FelV/FIV Test **\$42.95 ()**

This simple blood test can be done in-house, and it takes about 10 minutes. The test checks for Feline AIDS and Leukemia, two common and extremely contagious feline diseases. We recommend having this test done yearly, especially if your cat is either fully outdoors or an outdoor/indoor cat.

Bag of Hill’s Science Diet Food **Price Varies ()**

Hill’s Science Diet is top-of-the-line when it comes to providing optimal nutrition for your pet. Ask our staff what food is best for your cat!

C.E.T.® Chews **\$25.00 ()**

These chews feature the exclusive dual-enzyme system, are made of freeze dried fish, and provide an abrasive texture and antiseptic action for clinically proven control of plaque and tartar in cats.

Home Again Microchip **\$50.00 ()**

A Home Again Microchip is the best way to provide permanent identification for your pet. The chip is inserted via syringe, and each chip has its own unique number to identify your pet. If your pet ever wanders off and is taken to either a shelter or veterinary clinic, your pet’s number will show up on the microchip scanner and we can much more easily get your pet back home again. This price also includes the first year of enrollment through Home Again. *This can be done more comfortably during spay or neuter.

Revolution for Kittens **Price Varies**

Revolution is applied topically and will protect your kitten from heartworms, fleas, ear mites, hookworms, and roundworms for 30 days. *You may purchase in bulk once your kitten is over 5 lbs.

Total for Standard Kitten Visit \$88.70 - 117.20
